DETAILED ACTION

1. Claims 1 – 28 have been presented for examination.

Election / Restrictions

2. This application contains claims directed to the following patentably distinct claimed inventions. Restriction to one of the following invention is required under 35 U.S.C 121:

- I. Claims 1 / 7 and 2 drawn to a secured device system that manages and decodes the data stream based upon the source of the data stream (e.g. either from a playback storage system or from a broadcasting system), classified in class 713, subclass 193.
- II. Claims 1 / 7 and 3 – 5 drawn to a secured device system that manages and decodes the data stream based upon the content of the data stream (e.g. either a partially encrypted stream or a complete stream), classified in class 380, subclass 202.

3. This application contains claims directed to the following patentably distinct species: Group I and II with generic claim limitations (claim 1 / 7) as presented above.

Art Unit: 2131

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 7 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.
